GENERAL PRESSURE GAUGE SERIES "F"

PN001-015

ABS case,plastic window, brass internal series"GA"	PN001-005
Black steel case,plastic window, brass internal series"GS"	PN006-008
Stainless steel case,plastic window, brass internal series"GSB"	PN009-010
Stainless steel case,plastic window, SS internal series"GSB"	PN011-013
General gauge with flange series "GF"	PN014-015

GLYCERIN FILLED PRESSURE GAUGE SERIES "F"

PN016-023

Stainless steel case, polycarbon window, brass internal series"FB"	PN016-017
Stainless steel case, polycarbon window, brass internal with flange series"FBF"	PN018-019
Stainless steel case, polycarbon window, ss internal series"FS"	PN020-021
Stainless steel case, polycarbon window, SS internal with flange series"FSF"	PN022-023

THERMOMETER SERIES "T"

PN024-031

CAPILLARY THERMOMETER SERIES "LTCA"	PN024
HANGER TYPE THERMOMETERS SERIES "LTH"	PN025
BIMETAL THERMOMETER SERIES "LTB"	PN026-028
V SHAPED INDUSTRIAL GLASS THERMOMETER SERIES "LTV"	PN029
HOUSEHOLD THERMOMETER SERIES "LTH"	PN030
THERMO-MANOMETER SERIES "LTM"	PN031

MAGNETICS SERIES "M"

PN031-039

Arc Magnet SERIES "MA"	PN032
Ball Magnet SERIES "MB"	PN033
Block Magnet SERIES "MBL"	PN034
Disc Magnet SERIES "MD"	PN035
Magnetic hook SERIES "MH"	PN036
Magnetic Rods SERIES "MR"	PN037
Pot Magnet SERIES "MP"	PN038
Ring Magnet SERIES "MR"	PN039
Segment Magnet SERIES "MS"	PN040

General PRESSURE GAUGE, Series "G". ABS, black steel (plated steel), stainless steel... body, brass internal and thread, with BSP, NPT, BSPT connection, accuracy 2.5, 1.6, 1.0

PN001

ABS case, plastic window, brass internal series "GA"

CAPILLARY THERMOMETER SERIES "LTCA"

Code NO.:LTCA-144-B

Material:ABS case
brass capillary
Dial size: 2"
Rang:0-200C or as
required
Ring: galvanized or
not
Use: electronic
products such as

Code No: LTCA-148-B

Material: ABS housing
Size: 62*29*25mm
Capillary Length: 1M
or as required
Temperature range: -
40~40C

Code No: LTCA-152-A

Material: ABS
housing
Dial Size: 40mm
Capillary Length: 1M
or as required
Temperature range:
0-100C

Code No: LTCA-155

Material: ABS housing
Dial: 2"
Capillary Length: 1M
or as required
Temperature range:
0~200C

Model No: LTCA-144

Material: ABS
housing
Dial: 2"
Capillary Length: 1M
or as required
Temperature range: -
40~40C
theory: pressure
thermometer
type: capillary
thermometer
usage: industrial
function: measure

Model No: LTCA-148

Material: ABS housing
Insert Size:
62*56.5*29MM
Capillary Length: 1M
or as required
function: measure
temperature
usage: industrial
shape: square
theory: pressure
thermometer
distance: remote
capillary: copper

Code NO.: LTCA-156

Material:ABS case
Dial:2"
Temperature range:
0~120C
Capillary length:1M
or as required
Use:boiler,HVACR

Code No: LTCS-143-B03

Material:SS
case,brass sensor
Dia:4" back flange
Temperature range:-
40+40C
Capillary length:3-
10M

HANGER TYPE THERMOMETERS SERIES "LTH"

Code No:LTH-121

Refrigerator thermometer
 Material:SS
 Size:60*32*95mm
 Range:-30~30C/-20~80F
 Use:used in refrigerator or freezer to measure accurate temperature.

Code No:LTH-123

Freezer thermometer
 Material:SS housing
 Size:60*40*70mm
 Range-30~30C/-20~80F
 Use:can be used in refrigerator or freezer to measure accurate temperature.

Code No:LTH-126

Oven thermometer
 Material:Stainless steel
 Range of temperature:50~300° C/100~600°F
 Size:60*40*75mm
 Usage: used in oven,can measure the accurate temperature in it,let us control the

Code No:LTH-125

Oven thermometer
 Material:SS304
 Size:5.7*8*1.65cm.
 Temperature range:50~400C or as required
 Style: Hanging type
 Use:Can hang on the grill of oven, measure temperature accurately, compact design,easy to use.

Code No:LTH-127

Refrigerator thermometer
 Material:SS304
 Size:5.7*8*1.65cm.
 Temperature range:-30~30C/-20~80F or as required
 Style: Hanging type
 Use:used in refrigerator or freezer to measure accurate temperature.

Code No:LTH-014

Hanger type refrigerator thermometer
 Material:ABS
 Size:52*10.5*69mm
 Temperature range:-30+50C/F or as required
 Use:refrigerator or other household use
 Could have 3M sticker or magnet at the back

BIMETAL THERMOMETER SERIES "LTB"

PN026

Code No.:LTB-S-100

Material: full stainless steel
 Range of Temperature:- 20~120oC(0~250oF)
 Dial size:3",can also do 2.5",4"
 Lens:glass
 Probe:Φ6.5mm, Length of probe:63mm with thread.
 Connection:1/2"BSP,N

Code No: LTB-B-060

Case:galvanized iron
 Cover:Insert PC cover
 Dial size:60mm
 Use:Solor panel or other equipment
 OEM supply

Code No: LTB-B-063

Range of Temperature:0-120oC(30-250F) or as required
 Dial size:2.5", also can do 1.5",2",3",4",5"
 Material: SS304 shell
 Lens:glass
 Probe:Φ12mm, can be as Length of probe:52mm, can be as required
 Connection:1/2" BSP,NPT,or as

Code No.:LTB-S-063-1

Material:SS304
 Dia:2.5"
 Temperature:0-300C/F or as required
 Use:HVACR equipment Inlet
 thread:1/2,3/8,1/4 BSP,NPT or as required
 Stem length:40-500mm as required

Code No: LTB-BF-100

Range of Temperature:0~120oC or can be as required
 Dial size:4", can also do 1",1.5",2" 2.5",5" as required
 Material: SS304 shell
 Lens: glass
 Length of probe:30mm,can be as required
 Probe:Φ9mm
 Connection:1/2" BSP,NPT,or as required

Code No.: LTB-S-063-2

Material:SS304
 Dia:2.5"
 Temperature:0-300C/F or as required
 Use:HVACR equipment Inlet
 thread:1/2,3/8,1/4 BSP,NPT or as required
 Stem length:40-500mm as required

BIMETAL THERMOMETER SERIES "LTB"

Code No:LTB-B-034

Water bimetal temperature thermometer

Temperature range:0~120oC or can be as required
Dial size:34mm
Lens:glass,pc as required
Probe:Φ15mm
Length of probe:9.3mm or as required
Connection:special

Code No:LTB-P-063

Clip on Pipe Thermometer
Temperature :0~120°C(40~240°F), or as required
Dial size:2 1/2" or as required
Installation way: hang the bracket by spring,then put on the surface of pipe.
Material: SS ring, Aluminium back,brass bracket
Lens:waterproof glass

Code No:LTB-P-040

Water pipe clip on pipe thermometer
Material:galvanized iron case,with spring
Housing with brass bracket
Size:40mm
Use:water pipe
OEM,ODM

Code: LTB-S-080

SS case back connection thermoemter
Material:SS304
Dia:3",back connection
Temperature:0-400C/F or as requirement
Stem length 40-500mm as required
Inlet thread:1/2,3/8

Code: LTB-S-100

SS case back connection thermoemter
Material:SS304
Dia:4",back connection
Temperature:0-120C/F or as requirement
Stem length 40-500mm as required

Code:LTB-S-137

SS case of pyrometer
Material:SS304 case
Dia 3",4",5"
Use:widely used to measure the temperature of gas,liquid,solid instantly.
Could filled with oil inside

BIMETAL THERMOMETER SERIES "LTB"

PN028

Code No:LTB-A-063

Material:galvanized iron case,ss ring, brass thermowell
 Dial:2.5" or as required
 Temperature range:0-350C or as required
 Stem length:100mm or as required
 Thread:1/2BSP or as required
 Installation way:bottom connect
 Temperature could be adjusted
 Use:equipments of heater,refrigerator,o ven,ventilating,pipe, boiler etc.

Code No:LTB-U-080

Range of Temperature:0~290oC (50-550F),or can be as required
 Dial size:3",4",5"
 Material: full SS304
 Connetion: 1/2"NPT,BSP, or can be according to customers' requirement.
 Probe dia Φ 6.3, Φ 8, Φ 10,can be according to customers' requirement
 Special function: the dial can turn to anywhere by adjusting the connection point,and

Code No:LTB-S-138

Range of Temperature:-20~120oC (0-250F), it can be determined by customer

Dial:3",4",5"

Material:full stainless steel

Probe : Φ 6.3mm*210mm, any length is available

Connection:1/2"NPT or BSP, according to customers' requirement.
 Special

function:temperature can be calibrated to 0°C

OEM supply

Code No:LTB-S-080

Range of Temperature:0-120, it can be determined by customer

Material:SS304

Dia:2.5",4",5"

Temperature:0-300C/F or as required

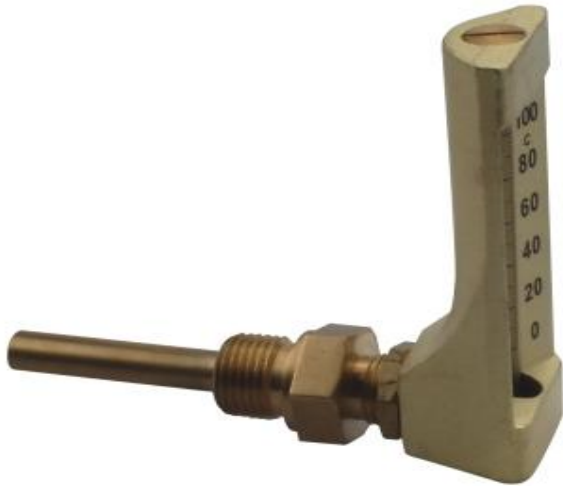

Use:HVACR equipment

Inlet thread:1/2, 3/8, 1/4 BSP, NPT or as required

Stem length:40-500mm as required

OEM, ODM

V SHAPED INDUSTRIAL GLASS THERMOMETER SERIES "LTV"

Code No:LTV-092

Industrial glass thermomter
 Upper body material: Aluminum cover, glass thermometer with organic or mercury liquid.
 Surface treatment: polishing,galvanized or painting
 Down body material: brass, iron, ss
 Upper body size:4",6",8"(110mm,150mm,200mm)
 Style: Straight or Angle 90
 Range of Temperature:-50~600oC,according to customers' requirement.
 Tempereare lower than 300oC, with brass down body, higher than 300oC,with iron or SS down body.

Code No:LTV-093

Industrial glass thermometer
 Upper body material: Aluminum cover
 Surface treatment: polishing,galvanzied or painting
 Down body: brass or iron
 Upper body size:4",6",8"(110mm,150mm,200mm)
 Style: Straight or Angle 90
 Range of Temperature:-50~600oC or according to customers' requirement.
 Temperature bellow 300oC,connection material is brass, higher than 300oC,it would be iron.
 Connection:1/2", 3/8",3/4" NBP,BSP, according to customers' requirement.
 Usage: This kind of thermometer can be used in gas engine of vessel,petrol or natural gas

Code No:LTV-094

Glass industrial thermometer
 1.Size:6" upper body
 2.Material:Plastic case, brass stem
 3.Range:0~250C or as required
 4.Stem length:63mm or as required
 5.Cover:glass
 6.Min scale:2C
 7.Use:can be used in boiler, refrigerator, heating,ventilating equipments
 8.OEM supply

HOUSEHOLD THERMOMETER SERIES "LTH"

PN030

Code No:LTH-101-02

Food thermometer
Material:SS304 ring and probe
Dial:2", 52mm and 55mm outer ring
Temperature range:0-120 or as required
Probe length:135mm or as required.
Sleeve color:red, black or any color required

Code No:LTH-100-03

Cooking thermometer
Material:SS304 ring and probe
Dial size:1 3/4" or as required
Probe length:135mm or as required
Temperature range:0~120C or as required
Sleeve: use ABS material, colour with black, white, blue, red or as required

Code No:LTH-101-01A

Small dial cooking thermometer
Material:SS304 ring and probe
Dial:1",plate can be as required
Temperature range:54-88C/F or as required
Stem:60mm or as required
With rubber ring
Any color of rubber ring
4pcs/set

Code No:LTH-101-04

Bbq thermometer with clip
Material:SS304 ring and probe
Dial:2",plate can be as required
Temperature range:0-120C/F or as required
Stem:304mm or as required

OEM,ODM

Code No:LTH-020B

Humidor Hygrometer
Material:Zinc alloy
Color of ring:yellow or silver
Color of face: yellow,white or black
Range:0~100%
Dial:50mm
These series can be done:27mm,33mm,37mm,43mm,50mm,55mm,60mm,65mm

Code No:LTH-012

Round insert hygrometer thermometer
Case material:zinc alloy
Insert type
Diameter:43mm,50mm,55mm,60mm,65mm

THERMO-MANOMETER SERIES "LTM"

Code No:LTM-01
 80mm iron case
 thermomanometer
 Material:iron case
 Dial:3" bottom
 connection
 Temperature
 range:0-120C/0-4bar
 or as required
 Thread:1/2 BSP or as
 required
 OEM ODM supply

Code No:LTM-02
 80mm iron case
 thermomanometer
 Material:iron case
 Dial:3"(80mm)
 Temperature
 range:0-120C/0-4bar
 or as required
 Thread:1/2 BSP or as
 required
 With check valve
 OEM ODM

Code No:LTM-03
 80mm ABS case
 thermomanometer
 Material:ABS case
 Dial:3" bottom
 connection
 Temperature
 range:0-120C/0-4bar
 or as required
 Thread:1/2 BSP or as
 required
 OEM,ODM supply
 With check valve

Code No:LTM-04
 80mm ABS case
 thermomanometer
 Material:ABS case
 Dial:3"(80mm)
 Temperature
 range:0-120C/0-4bar
 or as required
 Thread:1/2 BSP or as
 required
 With check valve

Code No:LTM-052
 2" dial capillary
 thermomanometer
 Material:ABS case
 Dial:2"
 Temperature
 range:0-120C/0-
 4bar,or 0-6bar
 Capillary length:1M
 or as required
 Inlet thread:1/4" or
 as required

Code No:LTM-040
 40mm dial capillary
 thermomanometer
 Material:ABS case
 Dial:40mm
 Temperature
 range:0-120C/0-4bar
 ,or 0-6bar,
 Capillary length:1M
 or as required
 Inlet thread:1/4"
 OEM,ODM

Customized Neodymium Magnet and Magnetic Assemblies

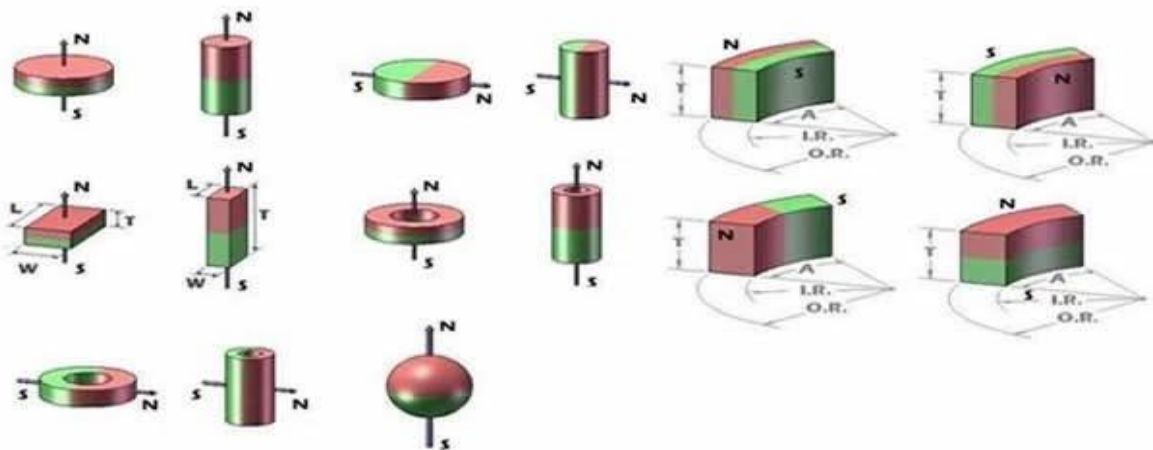

PN032

Arc Magnet "MA"

Material	Neodymium Magnet
Shape	Arc
Size	per your request.
Grade	N35-N52, N35M-N48M, N35H-N50H, N33SH-N48SH N30UH-N40UH, N30EH-N35EH.
Coating	Neodymium magnets are usually coated Nickel-Copper-Nickel plating to prevent the iron from rusting.
Application	Acoustics, Motors, Windmill, Transportation, IT industry, Communication equipments, Home appliance, Loudspeaker, etc
Max Operating Temperature	80 Celsius degree / 176 Fahrenheit degree
Features	Neodymium magnets are strong
Magnet pull force	ca. 1kg
Delivery	By Sea or by air or kinds of transportation are available

Magnetization directions include:

Customized Neodymium Magnet and Magnetic Assemblies

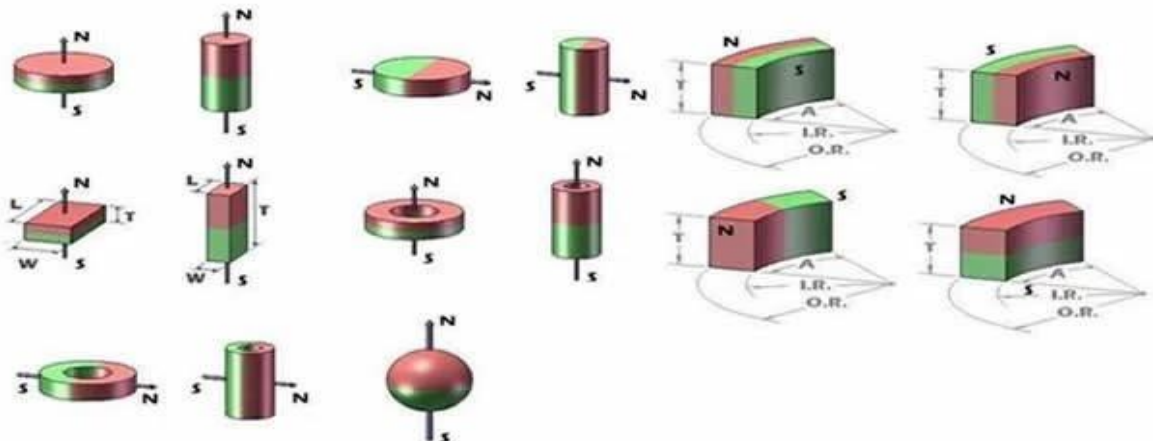

PN033

Ball Magnet "MB"

Material	Neodymium Magnet
Shape	Ball
Size	We can design the size according your requirement.
Grade	N35-N52, N35M-N48M, N35H-N50H, N33SH-N48SH N30UH-N40UH, N30EH-N35EH.
Coating	Neodymium magnets are usually coated Nickel-Copper-Nickel plating to prevent the iron from rusting.
Application	Acoustics, Motors, Windmill, Transportation, IT industry, Communication equipments, Home appliance, Loudspeaker, etc
Max Operating Temperature	80 Celsius degree / 176 Fahrenheit degree
Features	Neodymium magnets are strong
Magnet pull force	ca. 1kg
Delivery	By Sea or by air or kinds of transportation are available

Magnetization directions include:

Customized Neodymium Magnet and Magnetic Assemblies

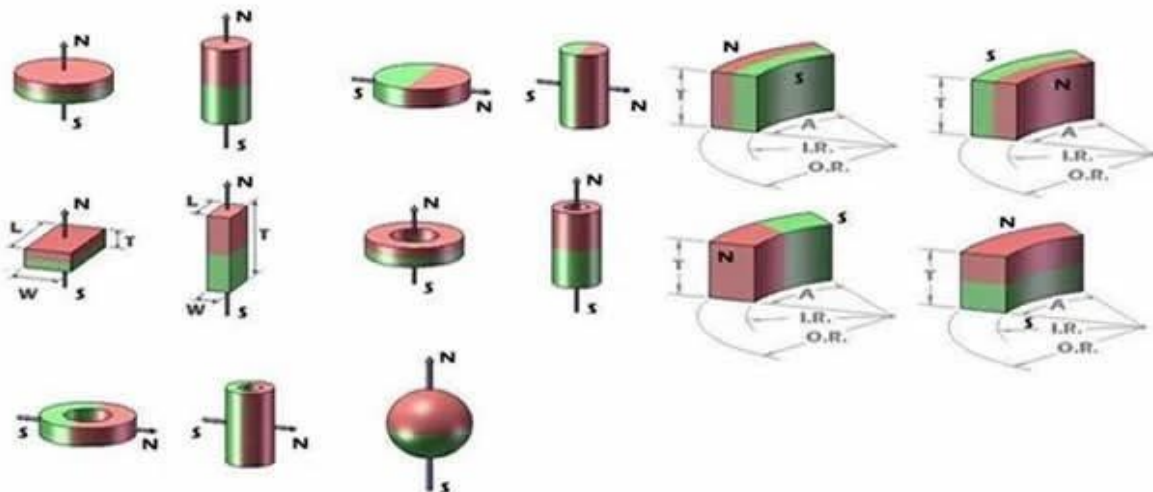

PN034

Block Magnet "MBL"

Material	Neodymium Magnet
Shape	Block
Size	Max. size 240*100*40, Min. size 2*2*1 or We can design the size according your requirement.
Grade	N35-N52, N35M-N48M, N35H-N50H, N33SH-N48SH N30UH-N40UH, N30EH-N35EH.
Coating	Neodymium magnets are usually coated Nickel-Copper-Nickel plating to prevent the iron from rusting.
Application	Acoustics, Motors, Windmill, Transportation, IT industry, Communication equipments, Home appliance, Loudspeaker, etc
Max Operating Temperature	80 Celsius degree / 176 Fahrenheit degree
Features	Neodymium magnets are strong
Magnet pull force	ca. 1kg
Delivery	By Sea or by air or kinds of transportation are available

Magnetization directions include:

Customized Neodymium Magnet and Magnetic Assemblies

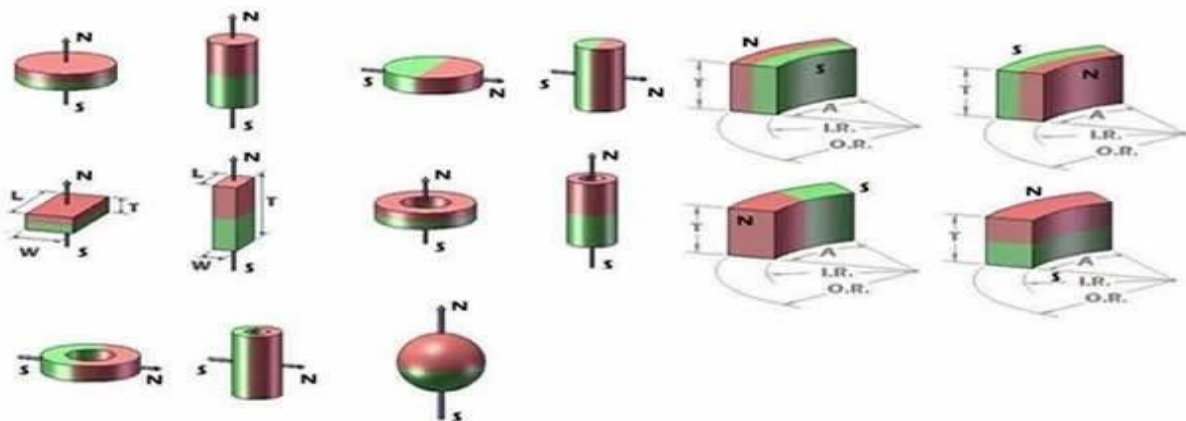

PN035

Disc Magnet "MD"

Material	Neodymium Magnet
Shape	Disc
Size	Max. size D240*40, Min. size D2*1 or We can design the size according your requirement.
Grade	N35-N52, N35M-N48M, N35H-N50H, N33SH-N48SH N30UH-N40UH, N30EH-N35EH.
Coating	Neodymium magnets are usually coated Nickel-Copper-Nickel plating to prevent the iron from rusting.
Application	Acoustics, Motors, Windmill, Transportation, IT industry, Communication equipments, Home appliance, Loudspeaker, etc
Max Operating Temperature	80 Celsius degree / 176 Fahrenheit degree
Features	Neodymium magnets are strong
Magnet pull force	ca. 1kg
Delivery	By Sea or by air or kinds of transportation are available

Magnetization directions include:

Customized Neodymium Magnet and Magnetic Assemblies

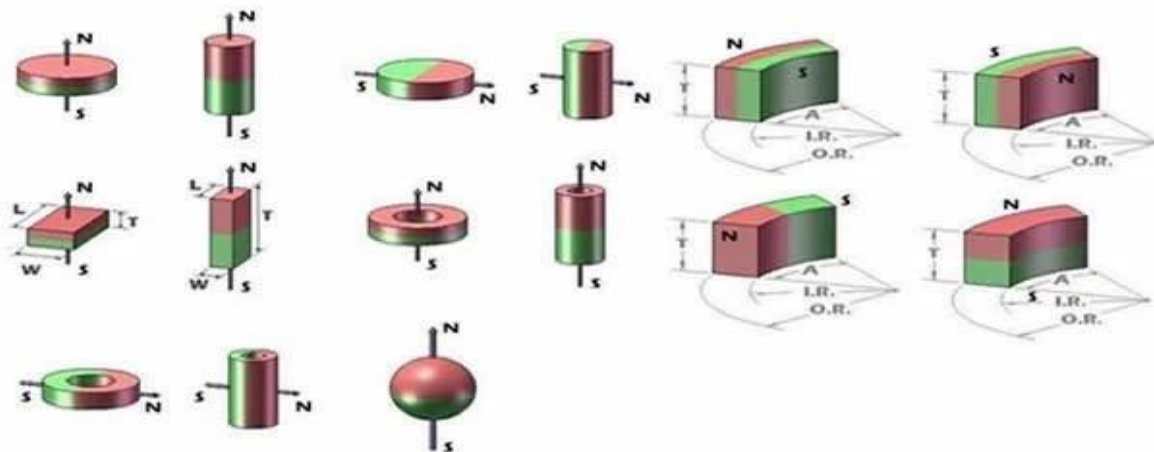

PN036

Magnetic hook "MH"

Material	Neodymium Magnet
Shape	Pot / Cup Shape
Size	We can design the size according your requirement.
Grade	N35-N52, N35M-N48M, N35H-N50H, N33SH-N48SH N30UH-N40UH, N30EH-N35EH.
Coating	Neodymium magnets are usually coated Nickel-Copper-Nickel plating to prevent the iron from rusting.
Application	Industrial Magnet
Max Operating Temperature	80 Celsius degree / 176 Fahrenheit degree
Features	Neodymium magnets are strong
Magnet pull force	ca. 1kg
Delivery	By Sea or by air or kinds of transportation are available

Magnetization directions include:

Customized Neodymium Magnet and Magnetic Assemblies

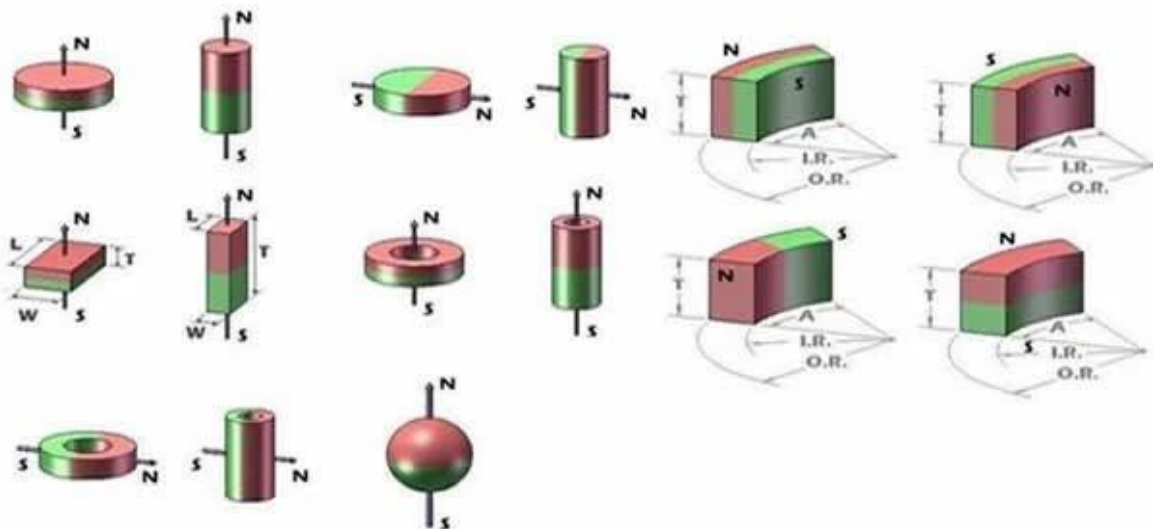

PN037

Magnetic Rods "MR"

Material	Neodymium Magnet
Shape	Bar, rod magnets neodymium
Size	We can design the size according your requirement.
Grade	N35-N52, N35M-N48M, N35H-N50H, N33SH-N48SH N30UH-N40UH, N30EH-N35EH.
Coating	Neodymium magnets are usually coated Nickel-Copper-Nickel plating to prevent the iron from rusting.
Application	Industrial Magnet
Max Operating Temperature	80 Celsius degree / 176 Fahrenheit degree
Features	Neodymium magnets are strong
Magnet pull force	ca. 1kg
Delivery	By Sea or by air or kinds of transportation are available

Magnetization directions include:

Customized Neodymium Magnet and Magnetic Assemblies

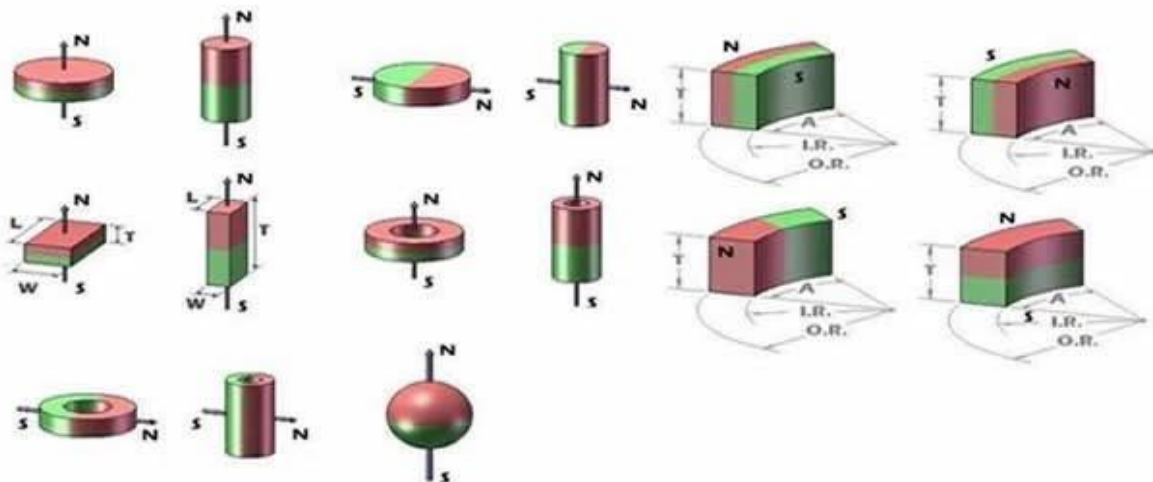

PN038

Pot Magnet "MP"

Material	Neodymium Magnet
Shape	Pot
Size	We can design the size according your requirement.
Grade	N35-N52, N35M-N48M, N35H-N50H, N33SH-N48SH N30UH-N40UH, N30EH-N35EH.
Coating	Neodymium magnets are usually coated Nickel-Copper-Nickel plating to prevent the iron from rusting.
Application	Acoustics, Motors, Windmill, Transportation, IT industry, Communication equipments, Home appliance, Loudspeaker, etc
Max Operating	80 Celsius degree / 176 Fahrenheit degree
Features	Neodymium magnets are strong
Magnet pull force	ca. 1kg
Delivery	By Sea or by air or kinds of transportation are available

Magnetization directions include:

Customized Neodymium Magnet and Magnetic Assemblies

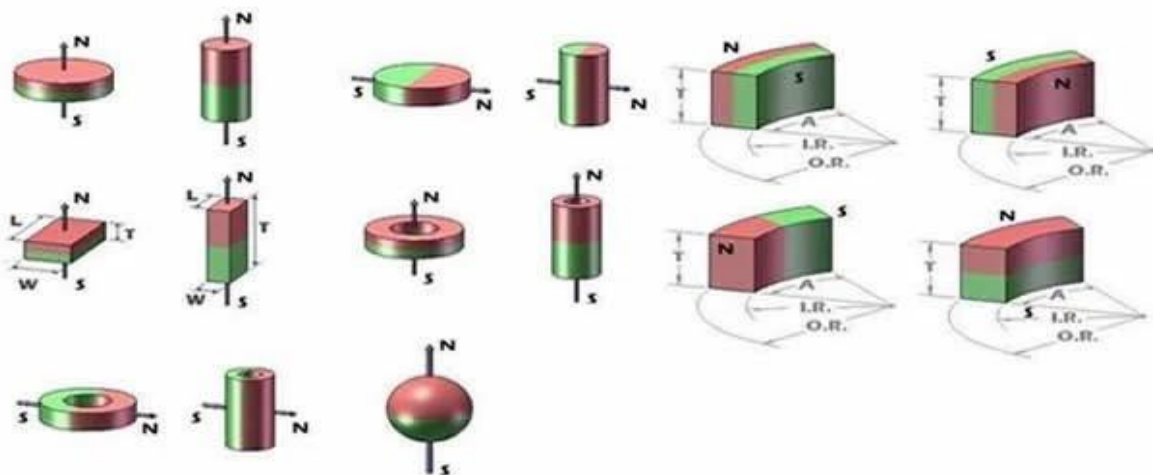

PN039

Ring Magnet "MR"

Material	Neodymium Magnet
Shape	Ring
Size	Max. size OD240*40(hole size customized), Min. size D2*1*1 or We can design the size according your requirement.
Grade	N35-N52, N35M-N48M, N35H-N50H, N33SH-N48SH N30UH-N40UH, N30EH-N35EH.
Coating	Neodymium magnets are usually coated Nickel-Copper-Nickel plating to prevent the iron from rusting.
Application	Acoustics, Motors, Windmill, Transportation, IT industry, Communication equipments, Home appliance, Loudspeaker, etc
Max Operating Temperature	80 Celsius degree / 176 Fahrenheit degree
Features	Neodymium magnets are strong
Magnet pull force	ca. 1kg
Delivery	By Sea or by air or kinds of transportation are available

Magnetization directions include:

Customized Neodymium Magnet and Magnetic Assemblies

Segment Magnet "MS"

Material	Neodymium Magnet
Shape	Segment
Size	We can design the size according your requirement.
Grade	N35-N52, N35M-N48M, N35H-N50H, N33SH-N48SH N30UH-N40UH, N30EH-N35EH.
Coating	Neodymium magnets are usually coated Nickel-Copper-Nickel plating to prevent the iron from rusting.
Application	Acoustics, Motors, Windmill, Transportation, IT industry, Communication equipments, Home appliance, Loudspeaker, etc
Max Operating Temperature	80 Celsius degree / 176 Fahrenheit degree
Features	Neodymium magnets are strong
Magnet pull force	ca. 1kg
Delivery	By Sea or by air or kinds of transportation are available

Magnetization directions include:
